

Product Picture	Product Name	Product Code	Description
	Green Sandalwood Wooden Massage Comb	B1SC101	A wooden massage comb that does two things right: detangles smoothly and feels great on the scalp. The green sandalwood gives it a gentle, lasting fragrance you won't get from plastic.
	Red Sandalwood Massage Comb	B1SC102	Red sandalwood comb — smooth through knots, gentle on the scalp. The wood's natural oils condition as you comb, and it gets more beautiful the longer you use it.
	Fine Teeth Airbag Massage Comb	B1SC103	Lightweight plastic comb with a cushioned base. The fine-set teeth add natural bounce and lift at the roots, while the flexible bristles stimulate your scalp for a relaxing feel.
	Self-cleaning Massage comb	B1SC104	Two-layer self-cleaning paddle comb — tangled hair wraps around the outer layer, so cleanup is a snap. Gives your scalp a good massage and adds natural volume at the roots.
	Square Wooden Air-cushion Comb	B1SC105	Wooden air-cushion comb — the warmth and smoothness of solid wood in your hand, with a cushioned pad that gently massages your scalp every time you comb.
	Long wooden air-cushion comb	B1SC106	Smaller than the full-size paddle, this wooden air-cushion comb gets right where you need it — more control, more precision, and a scalp massage that actually hits the spots.
